

Experience Map 1 — Recruitment Process

	CV COLLECTION	CV SHORTLISTING	INITIAL CALL (SCREENING)	INTERVIEW SCHEDULING	INTERVIEW EVALUATION	DECISION & FEEDBACK
WHAT THEY DO	Get CVs via LinkedIn ads, DMs, or email inbox; manually download and sort.	Review top 10–20 CVs, check details, and shortlist manually. .	Make first phone call to assess communication, expectations, and salary.	Arrange interviews (online or on-site) after call.	Conduct interviews and gather panel feedback.	Select candidate(s); update others manually by email.
PAIN POINTS	Time-consuming to upload each CV; duplicate applications; inconsistent formats.	No structured way to mark if a candidate was called or not; can't see comments easily.	Forget to note call feedback; different HRs handle calls inconsistently.	Finding free slots manually; coordinating with panel members; sending reminders manually.	Panel bias; inconsistent scoring; missing or delayed feedback.	Forget to send rejections; lose data of unused CVs.
FEELINGS	 Frustrated	 Overloaded	 Disorganized	 Stressed	 Unfair / Confused	 Incomplete
OPPORTUNITIES / SOLUTIONS	Bulk upload option, auto-parse CVs, detect duplicates, tag candidates by position.	Add status tracker (called/not called), comment fields, easy tagging for shortlisted candidates.	Add quick call log form (notes + rating); option to mark “call done” status; WhatsApp link integration.	Semi-automated scheduler that checks panel availability and sends calendar invites; reminders.	Structured scorecard (attitude, technical, communication); anonymous ratings; auto-score summary.	Archive rejected CVs with reason; option to reuse them later; keep status visible (selected / not called / rejected).

Experience Map 2 — Document Management

	DOCUMENT COLLECTION	DOCUMENT STORAGE	DOCUMENT RETRIEVAL	LETTER PREPARATION	APPROVALS & SIGNATURES	RECORD MAINTENANCE & COMPLIANCE
WHAT THEY DO	Collect copies of ID, birth certificates, appointment letters, etc. from new hires.	File all physical papers and save soft copies manually.	Search for old documents when needed (service letters, confirmation, warnings).	Prepare letters (service, salary confirmation, warning, etc.).	HR needs to get manager approval and physical signature.	Keep records for government audits and employee history.
PAIN POINTS	Manual file handling; easy to miss mandatory documents.	No central system; hard to locate files later; risk of loss.	Difficult to trace old employees; time wasted searching manually.	Each letter is typed from scratch; no consistency; delays.	Too many steps; HR goes “up and down” to collect signatures.	Must keep manual copies for some docs; mix of old and new records.
FEELINGS	 Tiring	 Frustrated	 Overwhelmed	 Slow	 Inefficient	 Neutral
OPPORTUNITIES / SOLUTIONS	Introduce digital checklist for each employee (shows missing mandatory docs).	Centralized document repository linked to employee profile; version control + backups.	Smart search (by name, ID, or document type); tagging and date based filters.	Predefined letter templates with auto filled data fields; just “generate & print.”	Digital approval workflow; manager e-signatures; auto generated PDFs ready to print.	Maintain hybrid system (digital + manual sync); generate report on document completeness.
