Personal Profile

Software Engineer with a strong focus on backend development and system design. Interested in building reliable and scalable server-side applications. Comfortable working with APIs, databases, and performance optimization.

Education

BSc (Hons) in Software Engineering

University of Moratuwa

2019 – 2023

G.C.E. Advanced Level (Physical Science Stream)

Ananda College, Colombo

2018

Results: A – Combined Maths, A – Physics, B – Chemistry

Technical Skills

- Languages: Java, Python, Go (basic)
 - Frameworks: Spring Boot, Express.js
 - Databases: PostgreSQL, MySQL, Redis (basic)
 - Tools: Git, Docker, Linux, Postman
 - Concepts: REST APIs, Microservices (basic), Multithreading
-

Work Experience

Software Engineer

NextGen Systems Lanka

Mar 2024 – Present

- Developed backend services using Spring Boot
- Designed REST APIs for internal and external systems
- Improved query performance and reduced response times
- Worked with Docker for containerized deployments

Trainee Software Engineer

InnovaTech Solutions

Jul 2023 – Feb 2024

- Assisted in backend development using Node.js
- Worked with databases to manage application data
- Fixed bugs and supported testing activities

Projects

Inventory Management System

- Built backend APIs using Spring Boot
- Designed database schema and handled data operations

URL Shortener Service

- Developed a simple service using Node.js and MongoDB
- Implemented basic analytics for link usage

Extracurricular Activities

- Member of University Programming Club
- Competitive programming (basic level)

Soft Skills

- Analytical Thinking
- Problem Solving
- Team Collaboration
- Adaptability
